

STATE FAIR AUTO SHOW  
TO HAVE ALL 1917 MODEL

J. S. Kendall, director in charge of the Automobile Division of the State Fair of Texas, announces that plans for the biggest automobile show in the South ever seen have been completed by the fair management, and that the active interest and co-operation of the Texas dealers has been secured.

During the past year the Auto mobile Building in Fair Park, Dallas, which houses the big show, has been extensively remodeled and redecorated, and its facilities have been brought right down to date, so that the 1917 show will be presented under the most favorable conditions possible.

There is no doubt but what this show will be intensely interesting to many prospective car owners throughout the Southwest, as it offers practically the only opportunity the people of this section will have to see all the new 1917 models side by side, and to make comparisons of the relative values of each.

John W. Atwood, of Dallas, who is president of the Automobile Dealers Association, states that the members of that body are all actively interested in the coming show and are making extensive preparations for their exhibits and demonstration work.

It is authoritatively stated that practically all of the popular makes will be included in the big show at the State Fair of Texas, and that each will be represented by its very latest models. Trucks and commercial cars will be seen in large numbers, as well as the best of the exclusively pleasure cars.

MANY MADE PRODUCTS  
WILL BE SEEN AT STATE FAIR

S. I. Munger, director in charge of the Manufacturers Division of the State Fair of Texas, announces that the display in his section this year will be a revelation to fair visitors, and that practically every manufacturer of any importance in the Southwest will be represented with a good and thoroughly representative exhibit.

Particular attention has been paid by the fair management this year to the matter of securing exhibits of the products "made-in-Texas," and it is stated that these products will be at the fair in overwhelming numbers.

The average Texan has little or no real idea of the wonderful diversity of products made in this State, and the "Made-in-Texas" exhibits are expected for this reason, to be of a great deal of interest. They will include hundreds of articles which are not generally attributed to Texas manufacturers, but which are actually made here—and well made, too.

The Manufacturers exhibits at the State Fair are always interesting. This year, because of their increased numbers, and also because of the increasing importance of Texas as a manufacturing State, they are expected to be even more so.

W. H. Stratton, secretary of the Fair Association, states that practically all the available space in the Manufacturers Building has been contracted for, but that a few concessions are still remaining, and that these may be secured by writing direct to the Fair Association, Dallas.

STATE FAIR ATTRACTIONS  
OF NEW 'HIGH STANDARDS'

H. A. Olmsted

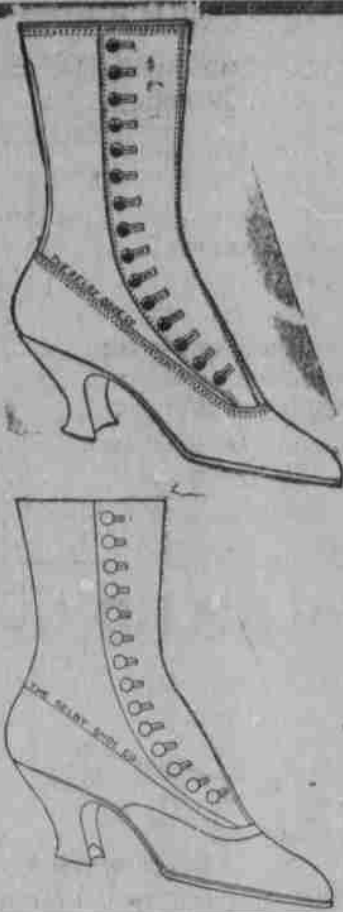

The amusement features provided for the 1918 State Fair of Texas, which opens at Dallas October 14, are the very best ever offered by any fair management.

This positive assertion is made by H. A. Olmsted, director in charge of the State Fair of Texas, and is based upon contracts already signed with some of the best carnival and musical organizations in the country.

The P. A. Wortham Shows, considered by many to be the best carnival on the road today, will be at Fair Park throughout the period of the fair, October 14 to 29. With this carnival are some of the best and highest priced attractions in the carnival world and these shows are sure to be of great interest to every fair visitor.

The various musical programs, of which there will be many, will be headed by Flavin's Band. This is the organization headed by A. F. Flavin, which won premier musical honors at the Panama-Pacific exposition, playing both the opening and closing engagements. Mr. Flavin will bring the same organization to Dallas that scored so heavily at San Francisco, and a real treat is promised music lovers of the Southwest.

The various other attractions and amusements are the very best of their kind and there is no doubt that the entertainment features of the 1918 State Fair will excel all former offerings.

## WONDERFUL TONIC IS SMILE

Does Wonders in Smoothing Out the Rough Places That Are Met on Life's Journey.

A smile is the bright green carpet of grass that covers the brown earth—the first sign that winter is over, the Telephone News says.

A smile is the rippling softly tinted bloom that covers the grayish bare, black limbs of the fruit trees.

A smile is the light, feathery sheen of green that bursts from the brown buds of hush, plant and tree with the first warm rays of the springtime sun.

Like it? Well, here's some more! A smile is the song of a meadow lark to its mate as together they build their nest.

A smile is the bright warm sunlight after the gentle pattering shower; it changes the very face of nature, transporting the gloom into the joyousness of a wonderful day.

So nature smiles while heavy hearts grow light, and life is new again! If nature's smile has such a potency, what may we not expect from a smiling human countenance or the human "voice with the smile?"

There's a "Miss Benevolence" at the head of the "Complaint Bureau" of a large institution, so vouchsafes a contemporary who is all but stone deaf! Important points of the bitter and often unreasoning arguments of red-faced, explosive complainers are handed to her on memoranda by a clerk who stands in back and listens. But "Miss Benevolence," all unaware of the stormy words hurled at her, smiles and smiles and smiles. And then smiles some more, with never a snarl, "til the storm of unreason—and, you know, it's apt as not to be unreason—is over.

And the storm always does pass by, for she never loses that genial composure, but smiles and returns smiling, soft spoken words for wrathful and bitter invective.

Don't think that a mouth with up-turned corners denotes weakness or that there's such a thing as being too proud to grin; for you can fight the good fight better when you smile. There was a time when grimed, deep chested men once roamed the earth, whose mighty roar set whole cities trembling in their path. But, bless your heart, they have gone the way of all buxomers of the past! The "stuffed club" of benevolence and good humor does most of the winning these days.
